

Approach to Carbon Neutrality

This evening presentation will highlight strategies for carbon reduction for new and existing buildings, and discuss approaches to repositioning of existing buildings, achieving net positive energy, and the greening of cities.

Speaker:

*Mehdi Jalayerian PE, LEED AP
Executive Vice President, ESD*

With 28 years of engineering experience, Mr. Jalayerian leads the International and Special Project Groups for the firm and has vast experience designing cutting-edge systems for some of the world's largest and most progressive built spaces.

ESD has partnered with OFS Brands as host for this complimentary AIA CEU seminar in their LEED Gold Certified Showroom. Cocktails and appetizers will be served.
